

### Latest design for Broad Bay to Turnbells Bay (Fletcher House)

As part of Dunedin City Council’s standard open market procurement process, we will be going to tender in September 2021 for the construction works needed for the inland Broad Bay to Turnbells Bay section (Section 5).

The contract is expected to be awarded by October/November 2021, with the successful contractor starting construction work in late 2021/early 2022.

The majority of the works will be road construction and expected to be completed before the end of 2022.

The work on the Broad Bay to Turnbells Bay section will be on the inland portion of Portobello Road, connecting the recently completed widening at Sandpiper Street in Broad Bay with the existing section near Frances Street at Turnbells Bay.

The design has been developed by our designers from Broad Bay resident feedback specifically for the procurement process. It is not the final design but is 85% complete, so there are a few technical changes still to be made.

Our website will be updated with these changes by the end of this week, please go to [www.dunedin.govt.nz/peninsula-connection](http://www.dunedin.govt.nz/peninsula-connection)

The actual date of the construction work will be published once confirmed.
